Competencies

Strategic planning

Self-sufficient

Communicative

Team leadership

Project management

Attention to detail

Patient

Helpful

Interests

In my spare time I enjoy watching movies or shows with a good story.

The same thing applies to games that I play. Building computers is also a passion that I have. It's like Lego, but for adults and a bit more expensive.

Traveling and discovering new cultures is something that I enjoy a lot, it gives me a lot inspiration.

Creating games and AI in games are two things that I frequently do in my spare time as well.
